EDMONTON BULLETIN, JAN. 17th, 1902.

A LAND OF WEALTH.

Wealth is the world's desire—the assurance of ability to procure the necessities and luxuries of life. The first necessity of life, and its greatest luxury, is food. The cost of food is the standard of value and the measure of wealth the world over. That country has the greatest wealth from whose soil labor produces substantial food in greatest abundance. Gold is no wealth. Its value is as a medium of exchange, or rather as a standard for the actual medium of exchange. A gold producing country is not necessarily a rich country. It may be for a time; while the gold is being produced. But the richer the mines the more quickly they are exhausted. The supply of gold is not renewed, and the gold country that is to-day the richest on earth may in a few years be the poorest, and remain so for all time.

But the wealth of a farming country need never be exhausted. Its soil may go on producing for thousands of years if the necessary labor, skill and intelligence are applied. The conditions are that there must be fertility of soil, and suitability of climate. There must be labor to turn the latent riches to account. And there must be opportunity to apply the labor to the soil in making it produce. There are many countries where the first two conditions, exist, but in such countries, it is in the nature of things that soon by increase of population the supply of labor increases beyond the opportunity for its profitable employment on the land. There is therefore always a force at work from within to drive mankind abroad from the homes and lands of their birth to look for favorable opportunities for the employment of their labor in producing wealth from the soil in other localities, and so enabling them to establish new homes for themselves. This force operating in the British islands and on the continent of Europe was the reason of the rapid settlement of Eastern Canada and the United States. And the favorable conditions existing in these countries has already caused a growth of population beyond the opportunities offered by their soil for profitable employment. At the present time the eyes of thousands in Canada and the United States, as well as in the British Isles and on the continent of Europe are anxiously scanning the map of the world in the search for new fields, where their energies may find scope; and where with opportunities such as were enjoyed by their fathers, they may repeat their success.

There must be fertile soil, there must be a suitable climate, there must be the possibility of building up a modern civilization; and the conditions must be such that the labor can reach the land; or in other words land must be cheap. The Canadian Northwest contains the largest unbroken area of country on the continent or in the world fulfilling all these conditions. In its thousand miles of plains which stretch from the Lake of the Woods to the Rocky Mountains, Canada is able to offer land to the landless of the continent and of the world. Not that these plains are altogether unoccupied. For twenty years past, and more, settlement has been drifting in and scattering far and wide over the prairies. These were years of experiment and too often of disappointment, when unexpected conditions were met with, and disastrous results felt. But this year, over all that vast stretch of territory the only complaint of the farmers and ranchers is that the railways have not sufficient rolling stock to move the returns of the past season before the beginning of the next. Whatever doubt there may have been as to the suitability of the Canadian Northwest for settlement that doubt is set at rest by the successive yields of previous years and by the crowding glory of the past year. It is not to be expected that every season will be the same. There have been bad years in the Northwest and there will be bad years. But as the conditions have become better understood the badness has been minimized and the good has been increased, while an occasional bumper year such as that last past gives solid assurance as to possibilities that would not otherwise have been believed. The fact of the grain production of the past season in Manitoba and the Northwest has produced a greater value of wheat, oats and cattle for sale than any other equal number anywhere else in the known world. This is the best possible answer to the question: Does the Northwest produce wealth?

The Northwest is not all alike in its production. Wheat growing is the specialty of one part, cattle ranching of another, and mixed farming—the growth of grain and live stock together—of still another. Speaking roughly the southeastern parts of

the Territories and Manitoba are wheat growing, the southwestern part of the Territories is ranching, and the northern part of the Territories is mixed farming country. Differences of soil, climate and other conditions are the causes of these differences in agriculture in the various sections. But it is safe to say that in no other equal area in the world is there an equal possibility of the production of wealth from the soil, whether by one branch of agriculture or another.

The conditions which render a country suitable for mixed farming are: Abundance of water and fuel, cheap building material, good grass for pasture and hay, a fertile soil, a sufficient rainfall and a climate giving an assured and adequate season of growth. The presence of all these conditions is not absolutely necessary in the case of a purely wheat raising, or a purely grazing country. The absence of one or other of them is what makes one region better adapted for wheat than cattle or better for cattle than sheep. But the presence of all is needed to fit a country for mixed farming. All these conditions are found from end to end of the Saskatchewan valley, and gave to that region many years ago the name of the Fertile Belt of Canada.

MANITOBA LEGISLATURE OPENED.

The Manitoba legislature opened on Friday last.

The following is the speech from the throne:
Mr. Speaker and Gentlemen of the Legislative Assembly,

I have much pleasure in welcoming you to the third session of the tenth legislature.

Since the last meeting of the legislature our province has been honored by a visit of their Royal Highnesses the Duke and Duchess of Cornwall and York. The people of Manitoba were much gratified by their presence, as was evidenced by the enthusiasm everywhere displayed. I feel sure that their visit will confirm and strengthen the ties uniting the motherland and the colonies, and that great good will result therefrom.

The abundant harvest vouchsafed by providence has been a source of great prosperity to the province.

The Canadian Northern Railway Co. have completed their line to Port Arthur and I anticipate that the farmers and traders of Manitoba will soon experience the beneficial results arising from the construction of this important work.

The much-needed consolidation of the statutes is being proceeded with by the commissioners, and will, it is expected, be completed within the year. It is therefore desirable that any amendments thought requisite should be submitted at this meeting of the legislative assembly for consideration. I regret to state that the federal government has, notwithstanding the strenuous exertions of my government, as yet failed to pay over to the province the accumulated interest upon the school moneys, and the interest derived from the sales of school lands. You will be asked to take measures to convince the federal authorities that the just demands of Manitoba in this respect should not be any longer disregarded.

In consequence of the existing situation it may be necessary to introduce legislation dealing with the money now paid to schools and to amend "The School Act."

The federal government has, to the surprise and regret of my advisors, disallowed "The Real Property Act," passed by this assembly. This act was obviously beneficial that it has been decided to reintroduce it, in the expectation that a measure purely provincial in its character, and urgently called for, will not again be disallowed.

Your judgment will be asked upon some other measures of public importance.

The public accounts and the reports of the several departments will be submitted to you. The estimates for the current year will be laid before you at an early date, and you will find that the estimates of expenditure have been prepared with a due regard to economy and the requirements of the public service.

I feel confident that you will give your earnest attention to the measures brought before you, and that your deliberations will be conducted solely in the interest of the public weal.

I trust that the blessing of God will rest upon your labors, and that the measures adopted will contribute to the welfare of the province.

THE CAR SHORTAGE.

The car shortage which was complained of here in common with other western points has been somewhat relieved during the last two weeks. Last week a considerable number of empties went up and down, and the cars unloaded here have relaxed the strain to a degree. The principal factor in increasing the supply of available cars has been the falling off in grain shipments. This has been due in part to the comparatively light deliveries made to the dealers since the holidays and also to a spirit of conservatism on the part of the dealers in selling to eastern firms.

MORINVILLE RACES.

The winter races were held at Morinville on Tuesday last week. The result was as follows:

Class 1.—Trotting.
1st, Teller's "Hat Rack."
Class 2.—Running.
1st, Assomance's "George."
2nd, Vercor's "Blackthorne."
Class 3.—Running.
1st, Gouin's "Browney."
2nd, Beaupre's "Dick."
3rd, Legue's "Black Bess."
The fastest time was made by Hat Rack in 2:55.

NURSE WALKER'S FUNERAL.

The funeral of the late Nurse Walker was held on Tuesday afternoon. Service was conducted in the Presbyterian church by Rev. D. G. McQueen. There was a large attendance. The pallbearers were Messrs. T. Hourston, G. J. Bryan, G. J. Kinnaird, W. Short, J. A. McDougall and W. J. Walker. Interment was made in the Edmonton cemetery.

SLEPT AT HIS POST.

Word has been received that Trooper Gray of Regina, has been placed under arrest in South Africa, and held for court martial. He was detected sleeping at his post while on picket duty. Recent the British soldier was shot for a similar offence.

MANITOBA MARKETS.

From the Commercial.
Manitoba wheat markets have been fairly active on the days when the American markets were strong, and dull when they were the reverse. The highest prices for the week were on Monday, when 1 northern for delivery last half January touched 71c in store. Port William. Since then the price has gone back to 70c. January delivery and 2 northern 67c, and yesterday the best price was 70 1/4c and 67 1/4c, January delivery. Some business has been done for May delivery, principally at 75 1/2c, 1 northern, and 72 1/2c 2 northern in store, Port William. No. 1 hard is worth 73c. Duluth prices the same as Port William.

Country wheat.—A number of the country markets are closed, owing to want of storage accommodation, and buyers have been without. As stocks offerings show poor quality. Prices held at last week's range. Car lots of No. 1 white on track or en route are quoted at 42c per bushel; No. 2 white, 40c per bushel; feed oats, 38c. No. 1 Alberta oats, (the new grade) are worth 39 1/2c, Port William, and No. 2, Alberta, 38 1/2c. Prices being paid to farmers at country points for No. 3 white oats range around 32c. Brandon rate of freight. Street oats here are worth 32 to 34c per bushel.

Barley.—The market holds steady under light receipts and a good demand. Maltng barley is worth 38 to 40c per bushel, and feed grades 34 to 36c per bushel on the street in carlots on track.

A PRETTY WEDDING.

A very pretty wedding took place on the morning of Jan. 14th, at the home of Mr. M. E. Tooke, of Strathcona, when his sister Miss Sara L. Tooke and Mr. Geo. A. Hull, of Bowell, Assa, were united in wedlock.

The bride looked charming gowned in a tailor made suit of gray tweed, with shot silk blouse to match.

Only a few intimate friends of the contracting parties were present. After the nuptial knot had been tied by Rev. J. Manning, B. A., the wedding guests sat down to a sumptuous breakfast, after which they all drove to the station to see the happy couple off on the southern train which will spend their honeymoon before settling down in their home near "The Hat" where Mr. Hull holds a position as agent on the C. P. R.

Although Miss Tooke has resided here for a few months only she will be much missed in the social and religious circles. The bride was the recipient of numerous beautiful presents many of them coming from old Ontario where the bride and groom had a very large circle of warm friends, who will join with us in wishing them a long life of wedded happiness.

Strathcona, Jan. 4th.

THE TOWN COUNCIL AND

THE ELECTRIC LIGHT COY
At the request of the Electric Light Company the council met in special session Wednesday evening to consider the petition presented by the company to the council to extend the franchise to the city of Edmonton. The petition was presented by Messrs. J. A. McDougall, J. R. Fraser and A. D. Kinross. In the absence of Sec. Kinross, Solicitor Beck acted as secretary.

Mr. McDougall explained that the first mistake of the company had been the installation of too small a plant. They had put in a 500 light plant and since that time they had been increasing and expanding as best they could.

Councillor Morris said he was surprised to find that the desire of the company was not for a 20 year franchise. He favored the acquisition of the plant by the town, by the purchase of the plant and by making preparation for the acquisition of the franchise. The plant should be bought as a going concern.

Mr. McDougall inquired which proposition would be preferable to the town, a proposition to extend the franchise, or an offer of purchase. The proposition already presented by the company.

The council present then expressed their attitude on the question. Councillor Grierson favored buying outright.

Councillors Gallagher and Goodridge favored either extending the franchise or purchasing outright.

Councillors Morris favored buying outright. He pointed out that if the town became interested in the plant the first demand of the ratepayers would be for cheaper light. This the shareholders would not desire.

Mayor Short pointed out that one benefit of municipal ownership would be the power of the town to collect the light rates as taxes, which power the town would not have as part proprietor of the plant.

Mr. McDougall wanted a committee appointed by the council to meet the directors of the company and form some basis of a proposition for submission to the council and the shareholders of the company.

Moved by Morris and Grierson, that with the information at hand at present the council prefers an offer to purchase the plant of the company to an offer involving an extension of the franchise or a partnership with the company. The motion was carried.

Moved by Gallagher and Goodridge that the fire, water and light committee and his worship be a committee to meet the directors of the Electric Light Co. and form some basis of a proposition for presentation.

THE LOCAL MARKETS.
Wheat—Deliveries continue without any considerable variation and the price remains the same as last week, ranging from 35c to 36c.

Oats have come in freely. One dealer reported 3,000 bushels for Tuesday's deliveries. The price during the week ranged as high as 25c.

Potatoes: The supply meets the demand at about 40c.

Eggs are scarce and bring 25c.

Beef is worth 21-25 live and 5c dressed.

Pork is worth 41-45 live and 61-65 dressed.

Mutton brings 41-45 live and 9c dressed.

HOTEL ARRIVALS.
Queen's—W. Ramsay, Mrs. Dennell, D. McLean, town; H. McDougall, J. Ryan, J. Donovan, J. Juneau, Ray, A. Gertin, P. Lamoureux, D. Lamoureux, E. Morin, J. Villeneuve, C. Lacombe, R. Shilleo, Lacombe, P. Dye, Vancouver; L. Dorval, Dawson City; M. Steffer, Morinville; J. B. Butehant, Stony Plain; C. W. Shaw, Lacombe; J. S. Phillips and wife, Beaver lake.

Jasper—A. Gony, Melvin, Iowa; G. Thorsen, Alford, Iowa; E. Eucher, Wetaskiwin; P. H. Goodridge, P. S. Gifford, town; J. G. Wallis, H. A. Wallis, Fort Saskatchewan; M. McKinley, Stony Plain; H. Cinnamon, Sturgeon; Mrs. and Miss Jordan, Red Deer; J. S. Phillips and wife, Beaver lake.

MEDICAL MEN UNITE.
A meeting of the medical men of the district was held in Pickett's restaurant on Wednesday. Besides the local physicians, Drs. Sutherland, of Leduc, and Bennett, of Fort Saskatchewan, were present. The medical men have realized that in unity is strength and in association is improvement and the purpose of the meeting was to form an association of the medical men in the Edmonton district. The primary object of the proposition was the mutual improvement of the members.

A tasty lunch was served after which the scheme was discussed. It was decided to organize an association and elect officers for the ensuing year. The officers elected were president, Dr. McKay; vice-president, Dr. Archibald; Sec.-treas., Dr. White; Messrs. Roy and McInnis are also members of the executive.

The meetings of the association will be held quarterly, the next meeting occurring on the second Wednesday of February.

WANTED.
General servant wanted. Apply A. B. Bulletin office.

FOUND.
Any person having lost a far coat, apply at the Police Fire Hall, Edmonton.

LOST.
Brown mare, weight 1000 lbs., six years old. Branded G on left hip; Reward at Joe. Larose's Livery. 21-26c.
